

## CAN bus Offers

For a limited time, or while supplies last, take advantage of a great CAN bus promotion to provide you with more software and hardware test capability:

1. **Purchase one following internal CAN Trigger, Decode & Measure options: WRXi-CANbus TDM, WPZi-CANbus TDM or WM8Zi-CANbus TDM and receive the following options for free:**
  - External CANbus TD trigger hardware (CANbus TD **\$1,300 value**) with 5 licenses to allow use on any LeCroy X-Stream oscilloscope (CANbus TD 5LIC, **\$9,445 value**)
  - Choice of other Trigger & Decode options
    - LINbus TD (**\$1,385 value**) **OR**
    - AUDIObus TD (**\$1,345 value**) **OR**
    - Choose two of the following:
      - I2Cbus TD (**\$798 value**)
      - SPIbus TD (**\$798 value**)
      - UART-RS232bus TD (**\$798 value**)
  
2. **Upgrade from WRXi-CANbus TD to WRXi-CANbus TDM, WPZi-CANbus TD to WPZi-CANbus TDM or WM8Zi-CANbus TD to WM8Zi-CANbus TDM for **\$1,545** and receive the external CANBus TD trigger hardware (**\$1,300 value**) at no cost.**
  
3. **Purchase the CANbus TD trigger and decoder option at a special price of **\$1,300**.**  
**Valid for:** Any model: WS Xs, WR Xi, WR6000, WR6000A, WP7000, WP7000A, WM8000, WM8000A, SDA60x0, SDA60x0A, SDA9000, SDA11000, SDA13000, SDA18000
  
4. **Purchase the CANbus TDM trigger and decoder with measure/graph capability for just **\$1,900**.**  
**Valid for:** Any model: WS Xs, WR Xi, WR6000, WR6000A, WP7000, WP7000A, WM8000, WM8000A, SDA60x0, SDA60x0A, SDA9000, SDA11000, SDA13000, SDA18000
  
5. **Purchase a spare CANbus TD Trigger Module for just **\$700**.**  
 This module is the heart of the LeCroy external CAN trigger, and may also be substituted for a Vector CANcaseXL in a wide variety of test situations
