

Introducing LeCroy's Investment Protection Plan

- Invest now for today's oscilloscope needs
- Enjoy financial protection for tomorrow's evolving needs
- Mitigate the risk of oscilloscope obsolescence

Purchase an eligible oscilloscope by June 25, 2010 and for a minimal investment, trade it up in the future to a higher performance oscilloscope as your requirements evolve.

LeCroy already offers upgrade paths within the WavePro 7 Zi, SDA 7 Zi, WaveMaster 8 Zi and SDA 8 Zi oscilloscope series and is now providing an upgrade path across multiple product lines.

Eligible Oscilloscopes:

- Any 1 GHz or 2 GHz WaveRunner Xi-A Series
- Any 2.5 GHz or higher bandwidth WavePro 7 Zi

WavePro 760Zi	Eligible WaveMaster 8 Zi Models – WM813Zi, WM816Zi, WM820Zi, WM825Zi, WM830Zi

Terms and Conditions – Only the eligible models listed in the above table may be exercised within the program. Any model not specifically listed in the above table is excluded from the program.

Customer must issue a purchase order to LeCroy for the new model oscilloscope in the amount of the current list price of the new model less the defined trade-up credit for the old model. Customer must assume expense of shipping the trade-in oscilloscope to LeCroy's factory. Delivery of the new oscilloscope cannot be made until after the unit is received by LeCroy.

Any existing software or oscilloscope memory options on the model traded-in will be replicated on the new model, provided that they are available. Other oscilloscope hardware options (including CPU memory) or accessories are not available for credit, trade-up or other compensation. Customer may also purchase new and additional options for the traded-up oscilloscope.
